Igniting Innovation in Early Childhood: From Passion to Action

The Early Educators Leadership Conference (EELC) is a national event, hosted by the Council for Professional Recognition. EELC supports a broad vision to advance and unify the early childhood education workforce, inspire early childhood educators, elevate educational leaders, and foster professional development.

The EELC is a retreat-style conference focused to provide professional development opportunities, networking, and recognition of its attendees. The EELC is unique in that it extends personalized opportunities for the exchange of shared experiences, compelling content, ideas, and vision for the profession.

Last year almost 400 pioneers in early childhood education came together in Houston, TX. For 2024, we aim to convene visionaries like you to spark innovation from passion to impact.

Our theme "Igniting Innovation in Early Childhood: From Passion to Action" emphasizes transforming advocacy, forging community-based career pathways and championing equity with a futuristic spirit. A secondary thread "Igniting the Arts" will fuel creativity within our field.

Join us in our nation's capital as premier advocates and thought leaders gather for our annual conference. New this year are elevated Champion levels to amplify your voice for change. Together let's inspire activism, develop early educators, and ignite early learners' potential across America.

2024 Early Educators Leadership Conference aims to:

- Curate a dynamic selection of thought-provoking workshops, sessions, and speakers, fostering interactive discussions among influential figures in early childhood education. Connect with leading minds dedicated to igniting innovation and transforming passion into actionable initiatives for children and families.
- Empower early childhood education (ECE) leaders, educators, and advocates with the essential tools to turn their passion for innovation into tangible actions. Provide them with the inspiration and resources needed to drive transformative change and elevate the impact of their work within the field.
- Leverage special initiatives to gain real-time insights into the latest trends, challenges, and successes in the field of early childhood education for 2024. Create a platform for attendees to actively engage with emerging ideas and initiatives, fueling their commitment to staying at the forefront of innovation in ECE.
